

Benjamin Stone

Choctaw, Oklahoma, 73020 | +1 (405) - 850 - 8042 | benstone2004@gmail.com

OBJECTIVE

Software engineering graduate from Western Governors University with a strong foundation in software design, programming, and system architecture. Passionate about building scalable, maintainable systems and contributing to innovative, team-driven projects. Committed to continuous improvement, effective communication, and quality-focused development.

EXPERIENCE

Mobile Application Junior Developer | Beam Class Creator | Oct 2025–Present

- Implemented front-end UI components and minor feature updates to improve usability and visual consistency
- Identified, troubleshooted, and resolved basic backend and application bugs, improving overall app stability
- Maintained and updated existing codebases to support ongoing feature enhancements and bug fixes
- Collaborated with senior developers to understand requirements and apply feedback to ongoing improvements
- Performed routine testing and validation of changes to ensure smooth performance before deployment

Voluntary QA Contributor | Live Roblox Title (94 Million+ visits) | Feb 2024–Present

- Collaborate with a cross-functional testing team to thoroughly evaluate new items, maps, and features prior to live release
- Design and execute both exploratory and structured test sessions, uncovering and documenting critical bugs and usability issues
- Compile, categorize, and prioritize detailed feedback reports streamlining developer triage
- Brainstorm and refine balance adjustments and perk concepts with fellow testers, driving enhancements that improve player engagement and retention
- Present clear, data-driven insights to development stakeholders, contributing to a more stable, polished gaming experience

EDUCATION

Western Governors University – B.S. Software Engineering, Graduated December of 2025.

- Completed comprehensive programming coursework including *Scripting & Programming Foundations* and *Introduction to Programming in Python*, building proficiency in algorithm development and problem-solving.
- Developed full-stack web skills through *Web Development Foundations*, *Front-End Web Development*, *JavaScript Programming*, and *User Interface & Experience Design*.
- Gained robust data handling expertise via *Data Management – Foundations, Applications, and Advanced Data Management*, reinforced by *Applied Probability & Statistics*.
- Explored cloud and infrastructure fundamentals with *Cloud Foundations*, *Network and Security – Foundations*, and *Hardware & Operating Systems Essentials*.
- Built leadership and communication skills through *IT Leadership Foundations* and *Technical Communication*, while grounding ethical awareness in *Ethics in Technology*.

CERTIFICATIONS

AWS Certified Cloud Practitioner – Issued November 2024

CompTIA Project+ – Issued September 2025

ITIL 4 Foundation – Issued December 2025

SKILLS

- **Programming Languages:** C#, Python, JavaScript
- **Web & Front-End:** HTML, CSS, React fundamentals
- **Databases & Data:** SQL (MySQL/SQL Server), data modeling, ETL basics
- **Cloud & DevOps:** AWS Cloud fundamentals, Git & version control, CI/CD pipelines
- **QA & Testing:** Test planning, bug tracking, writing clear defect reports
- **Tools & Frameworks:** Visual Studio, GitHub, SSMS
- **Soft Skills:** Technical communication, problem solving, collaboration, time management
